Band in a Bubble

Band in a Bubble is a real time observational workshop.

A group of musicians from around New Zealand gather together for the first time at the wharenu at Winterc in Hamilton to compose, record and perform a new song. Get a chance to observe the often hidden process of composition and recording. See how it all happens and watch the creative process occur in real time.

Band in a Bubble involves a number of performers from the Winterc Music Department alongside special guests John Egenes (USA/Dunedin), Reuben Bradley, Brooke Baker (Hamilton).

Band in the Bubble runs everyday from 12pm until late and observers are very welcome at the wharenu to watch them in action. To conclude #SPARK17 then party whereby you'll get to be part of the culmination of this project.
