HEAR THE ROAR AOTEAROA

Why kindness, compassion
and respect, matter in
maternity care

Hear the Roar is a conference based on the book *The Roar Behind the Silence: Why kindness, compassion and respect matter in maternity care*.

This cutting-edge book addresses the impact of a fear and blame culture within maternity care on both staff and those using the service. Our inspirational speakers will use their knowledge and experience to share positive and proactive approaches to encourage us to look at our own cultures of care and to encourage and nurture change.

Come and be part of this international movement bringing together midwives, doctors, consumers and others, all sharing the goal of breaking the silence around what's happening everywhere in maternity care. Together we'll share information, inspiration and practical suggestions to support each other. Together we can work to provide the kind and compassionate care maternity workers want to provide and birthing communities deserve to receive.
