The Binder: Moodle

Emerging Technologies Centre
Te Taiwhanga Hangarau Mohou

This demonstrator is designed to help tutors become familiar with a range of ICT tools used in "e-Learning". The site has been created around 3 spaces:

1. Educator Space: In this space tutors will be provided access to a range of self-paced "tips and tricks" learning activities.

2. Demonstrator Space: In this space tutors will be provided with a demonstrator site. They will use this site to safely explore the full functionalities of emerging technologies.

3. Exemplar Space: In this space "Best Practice" case studies in the use of ICT in teaching and learning will be highlighted.
Portfolio: Exabis

Welcome to Portfolio Overview

On the right of the screen is the "Exabis" block. As we are all relatively "novice" users I suggest we all begin by exploring the "My Portfolio" section. This section contains 6 individual tabs (see "Exabis Overview" above for more indepth review).

Information: This could be used to note the purpose and nature of the portfolio created.

Categories: Use this to create web-spaces to aid in "structuring and sequencing" of your portfolio and resources.

External Links: URLs could be provided linking to Flicker, YouTube. Other .... you can link these to categories created above.

Files: Upload files to categories created above.

Notes: These can be reflections, additions, reviews on files, URLs .... and you can link these to categories created above.

Export/Import: You can export the portfolio as a SCORM packet. (Have not tried importing but would be interesting to try).

1. Please use the forum below to comment on the "Exabis" block and potential use.

2. You can also link to uploaded Moodle assingments and the Portfolio Test link below will help you test this out.

3. To review the Moodle Communities thoughts on this block use the link below (NB: you can log in to Moodle Org as "guest")
Lecture Capture: Panopto

Ki te whakakahia i te iwi mā te ara mātauranga, te rangahau umanga whanakenga hoki
Web-Conferencing: Big Blue
Mobile: MLE

Languages / Sprachen:  🇬🇧 English / 🇩🇪 Deutsch

**MyMLE - End Users**  
For private persons
MyMLE is for everyone, who wants to use mobile learning for himself. It allows you to create your own mobile learning content and to pack it to a mobile phone application, which you can use on your phone.

**MLE-Moodle - End Users**  
For institutions/companies
An out-of-the-box mobile Learning system. Which contains everything you need to build a mLearning system. Easy to install and easy to use.
To use MLE-Moodle you need a web-server!

**MLE mobile application framework - Developers**
The mobile phone learning-application offers a very powerful mobile application framework for your own mobile projects. Extending the MLE is very easy due to a plugin-system.
